EXPERIENCE

Full Stack Developer

Mobishaala   a 2o24   e work from Home

Mobishaala Edutech Private Limited

Mobishaala Edutech is on a mission to transform education by using AI to make book-based learning more personalized and effective. We strive to help a billion students learn better by tailoring educational experiences to individual needs. As a developer, I work on AI projects that contribute to this vison

EDUCATION

BE CSE Ai 6 Robotics

Sathyabama institute of science and technology

Intermediate

Narayana Junior College

2024 - 2025

204 8 - 2024

LANGUAGES

English

Telugu

PROJECTS

Online Bookstore

(htpps://mibookstore.netIify.app/)

Developed a responsive online bookstore using React, REST APIs, and Bootstrap. Implemented flexible search options, with React components for a seamless user experience. Integrated public APIs for book data and utilized Email.js for contact and notifications

SpellAi

htpps://speIIai.netIify.app/)

Developed an AI chatbot using the Gemini AI API. Built home page,history component,loaders with React components and form inputs

BackendDevelopment

Developed a robust backend using Node.js, integrating Deepgram AI for voice-to-text conversion and GPT-4 for advanced text processing. Built a chat section that allows interaction with stored data in a vector database, enabling features like PDF storage, database querying, and generating notes into question papers. Ensured seamless and secure API interactions to support these advanced technologies
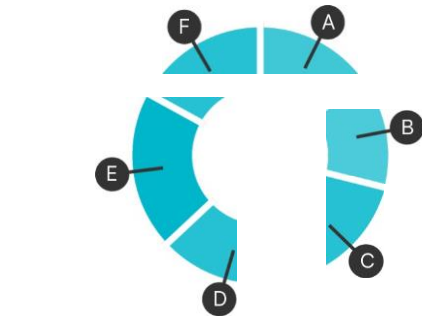

SUMMARY

Fast learner with a passion for new technologies. Skilled in building innovative solutions using the MERN stack. Always eager to adapt and grow in dynamic environments.

SKILLS

Postman   Mongodb   Aws s3

Reactjs   Nodejs   Html   Css

Javascript   Python   Git   Render

Vercel   VoiceModules   Single store db

Play.Ai Api
